SECTION 7 — NARRATIVE

On Tuesday November 3, 2026 at approximately 07:14 hrs, this officer was dispatched to the intersection of Cedar Avenue S and E 38th Street following a reported single-vehicle crash with injuries. Temperature at time of incident was 27°F. Black ice conditions were present and not visually apparent on the roadway surface. V1 (2018 Hyundai Tucson, Bergstrom) was traveling northbound on Cedar Avenue S. Upon approaching the intersection, the vehicle lost traction on black ice and the driver was unable to maintain directional control. V1 crossed into the intersection and struck the traffic signal pole on the northeast corner at the right-front corner of the vehicle. Airbag deployment occurred. Witness Darlene Kowalski, who was waiting at the bus stop on the southeast corner, observed the vehicle skid and confirmed no preceding erratic driving behavior. V1 passenger Ashley Bergstrom sustained a minor forehead laceration consistent with contact with the deployed airbag. She was evaluated by Hennepin EMS personnel and declined transport. Driver Bergstrom was uninjured. No citation was issued given the documented black ice conditions and absence of driver negligence. Minneapolis Public Works was notified of damage to the signal pole. V1 was towed by Twin City Towing due to airbag deployment and front-end damage.
