Patrol Division — Traffic Services
1125 Locust Street, Kansas City, MO 64106

OFFICIAL TRAFFIC COLLISION REPORT

(816) 555-0188 | Emergency: 911

CASE NUMBER	KCP-26-08-07-2218	WEATHER	Heavy Rain
DATE OF INCIDENT	August 7, 2026	LIGHT CONDITIONS	Daylight
TIME OF INCIDENT	17:52 hrs	ROADWAY SURFACE	Wet / Water pooling
LOCATION	I-70 Eastbound, Exit 12 interchange area, Kansas City, MO 64108	TYPE OF COLLISION / VEHICLES	3-vehicle chain rear-end / 3 vehicles

SECTION 1 — RESPONDING UNITS

Responding Agency	Kansas City Police Department
Investigating Officer	Officer Jerome A. Banks, Badge #3341
Officer Phone	(816) 555-0188 ext. 312
EMS Agency	KCFD EMS — Medic 4 (transported two occupants)
Tow Companies	Show-Me Towing (V2 and V3)

SECTION 2 — VEHICLES

#	Year / Make / Model	VIN	Plate	Damage
V1	2022 Dodge Durango	1C4SDHCT5NC218801	MO-BTK-4412 (MO)	Rear bumper and rear hatch deformed; brake lights damaged
V2	2019 Ford Ranger	1FTER4FH3KLA48801	MO-CRP-8821 (MO)	Front bumper, hood, radiator damaged; airbag deployed; rear bumper deformed
V3	2021 Honda Pilot	5FNYP8H26MB041801	MO-DXW-3319 (MO)	Front end destroyed; airbag deployed; hood folded; drivable in question

SECTION 3 — DRIVERS / OPERATORS

Party	Name	DOB	License	Citation
Driver V1	Carolyn A. Watts	01/15/1979	MO-W77234102	None
Driver V2	Michael T. Hensley	07/04/1986	MO-H44187219	MO RSMo §304.044 — Following Too Close
Driver V3	Yolanda S. Baker	11/28/1993	MO-B88219813	MO RSMo §304.044 — Following Too Close

SECTION 4 — PASSENGERS

Veh	Name	DOB	Injury	Transported
V2	Cynthia R. Hensley	03/09/1987	Neck and back pain; possible whiplash — moderate	Yes — KCFD EMS Medic 4, to Truman Medical Center
V3	Devon A. Baker	06/17/2019	Minor — evaluated by EMS, no transport recommended; child safety seat intact	No — evaluated on scene, no apparent injury
V1	Patricia L. Watts	08/22/2016	None — child in car seat, uninjured; evaluated by EMS at scene	No

SECTION 5 — WITNESSES

#	Name	Address	Phone	Statement
W1	Gerald M. Hutchins	Following motorist — contact details recorded	(816) 555-0374	Yes — stopped safely; written statement at scene
W2	Shirley T. Patterson	4412 E 12th Street, Kansas City, MO 64127	(816) 555-0481	Yes — observed from overpass pedestrian bridge; written statement

SECTION 6 — PROPERTY DAMAGE (NON-VEHICLE)

	Highway exit sign post (Exit 12 deceleration lane marker) — glancing contact from V3. MODOT notified.
--	---

SECTION 7 — NARRATIVE

On Friday August 7, 2026 at approximately 17:52 hrs, this officer was dispatched to I-70 eastbound in the Exit 12 interchange area in Kansas City on report of a three-vehicle collision with injuries. Heavy rain was falling at the time of the incident, with water pooling in the right lane of the highway near the interchange. V1 (2022 Dodge Durango, Watts) was traveling eastbound in the center lane and slowed for merging traffic approaching Exit 12. V1 reduced speed appropriately and came to a near-stop. V2 (2019 Ford Ranger, Hensley) was traveling behind V1 and failed to reduce speed in time, striking the rear of V1. The airbag in V2 deployed. V2 then came to rest partially blocking the center and right lanes. V3 (2021 Honda Pilot, Baker) was approaching from behind in the right lane and, upon encountering the stopped vehicles in reduced-visibility rain conditions, was unable to stop and struck the rear of V2 with significant force, pushing V2 forward into V1 a second time. V3 continued forward and made glancing contact with the Exit 12 deceleration lane marker post. Witness Gerald Hutchins was following approximately ten car lengths behind V3 and was able to stop safely. He confirmed both V2 and V3 were traveling at speeds he estimated as unsafe given the heavy rain conditions. Witness Shirley Patterson was observing from the Exit 12 overpass pedestrian bridge and had an overhead view of the sequence; she confirmed the three-part chain reaction and stated V2 made no visible braking attempt before striking V1. V2 passenger Cynthia Hensley reported neck and back pain and was transported by KCFD EMS Medic 4 to Truman Medical Center in stable condition. V3 passenger Devon Baker (age 7, child safety seat) was evaluated by EMS at the scene; no injury was apparent and no transport was recommended. V1 passenger Patricia Watts (age 10, child safety seat) was evaluated by EMS and found uninjured. Both children's safety seats were documented and recommended for replacement per post-crash protocols. V1 was driven from the scene after inspection confirmed drivability. V2 and V3 were towed by Show-Me Towing; V2 due to front structural damage and airbag deployment, V3 due to uncertain drivability pending front-end inspection. Drivers Hensley and Baker were cited under MO RSMo §304.044. MODOT was notified of the Exit 12 sign damage. Scene photographs and witness statements were uploaded to the case file.

SECTION 9 — SUPPLEMENTAL INVESTIGATION NOTES

SUPPLEMENTAL — CHILD PASSENGER SAFETY DOCUMENTATION: Two child passengers were involved in this incident: Devon A. Baker (age 7, V3) and Patricia L. Watts (age 10, V1). Both were restrained in child safety seats or booster seats at the time of the crash. Per National Highway Traffic Safety Administration (NHTSA) guidelines and Missouri child passenger safety law (MO RSMo §210.104), any child safety seat involved in a moderate-to-severe collision should be replaced even if no visible damage is apparent. Both parents were advised of this recommendation on scene. Kansas City Police Department's Child Passenger Safety resource sheet (PD-2204) was provided to both families. KCFD EMS personnel documented both children's assessments in their run reports (KCFD Run Reports #448812 and #448813). HIGHWAY CONDITIONS NOTE: Missouri DOT weather monitoring data at the time of the incident indicated rainfall rate of 0.74 inches/hour at the I-70 and I-435 interchange weather station (2.1 miles west). A formal MODOT data request has been submitted for the incident window (17:30–18:00 hrs) for inclusion in the case file. FOLLOW-UP ITEMS: (1) Medical update on Cynthia Hensley requested from Truman Medical Center within 72 hours. (2) MODOT weather station data request submitted. (3) V3 (Honda Pilot) structural inspection requested — if front sub-frame is compromised, an amended total-loss determination may be necessary.

SECTION 10 — CITATIONS / CHARGES SUMMARY

Party	Statute	Violation	Fine / Disposition
Driver V2 (Hensley)	MO RSMo §304.044	Following Too Close — adverse weather	Civil Penalty
Driver V3 (Baker)	MO RSMo §304.044	Following Too Close — adverse weather	Civil Penalty

SECTION 8 — OFFICER SIGN-OFF
