SECTION 7 — NARRATIVE

On Friday August 14, 2026 at approximately 15:33 hrs, this officer was dispatched to I-15 southbound at Mile Marker 311.4 in Salt Lake City following a report of a single-vehicle rollover with injuries. Conditions were clear and dry with full sunlight. V1 (2020 Ford Explorer, Sorensen) was traveling southbound in the right lane at a speed estimated by witness David Christiansen at 85–90 mph in a posted 65 mph zone. V1 drifted onto the right shoulder, overcorrected to the left, and entered a counterclockwise rotation before rolling over onto the driver side. The vehicle came to rest on the shoulder after approximately one and a half rotations. All occupant airbags deployed. The vehicle struck a guard post during the rollover sequence. Witness Christiansen pulled to the shoulder and called 911 immediately. He remained at the scene and provided a written statement in the patrol vehicle. Driver Sorensen was conscious and ambulatory; he declined transport but accepted on-scene medical assessment. Passenger Jordan Sorensen was transported to Intermountain Medical Center with a head laceration and possible concussion. Passenger Kelsey Sorensen was transported with shoulder contusion and neck stiffness, both in stable condition. V1 is a total loss and was removed by Wasatch Front Towing. Driver Sorensen was cited under UT UCA §41-6a-601 for exceeding a safe speed for conditions. UDOT was notified of the damaged guard post at Mile Marker 311.4. Scene photographs were taken and uploaded to the case file.
