SECTION 7 — NARRATIVE

On Friday March 27, 2026 at approximately 22:14 hrs, this officer was dispatched to J Street at 21st Street in Sacramento following a reported head-on collision with serious injuries. Conditions at the time were clear and dry with artificial street lighting. V1 (2018 Toyota Prius, Yamamoto) was traveling eastbound in the eastbound lane of J Street. V2 (2022 Dodge Ram 1500, Briggs) was traveling westbound in the eastbound lane of J Street — i.e., traveling the wrong way — and struck V1 in a near-direct head-on collision at the intersection with 21st Street. Both front-end airbag systems deployed. Witness Candace Owens, on the sidewalk adjacent to the collision point, observed V2 traveling eastbound in the wrong lane for approximately one block prior to impact. She stated V2 did not brake before the collision. Witness Patrick Duffy was flagged down by this officer two blocks from the scene; he observed V2 swerving erratically westbound — incorrectly oriented — approximately three blocks prior to the intersection. V1 passenger Jennifer Yamamoto was found unresponsive at the scene with multiple suspected rib fractures and airbag facial burns. Sacramento Metro Fire Medic 5 transported her to UC Davis Medical Center under trauma activation protocol. Driver Yamamoto sustained minor airbag abrasions and declined transport. Driver Briggs exhibited signs consistent with alcohol impairment at the scene: slurred speech, impaired balance, and strong odor of alcohol. A field sobriety test was administered and a chemical test was requested. Both vehicles were towed by Capital City Towing due to severe front-end damage. Driver Briggs was cited under CA VC §21651(b) (Wrong Way) and CA VC §23152(a) (DUI — pending chemical test results). City DPW was notified of the damaged street sign post at 21st Street. In-car and body camera footage are preserved and uploaded to the case file.
