SECTION 7 — NARRATIVE

On Monday December 28, 2026 at approximately 08:19 hrs, this officer, Sgt. Banks, PPD Traffic Unit Det. Kim, and Philadelphia Fire Dept. were dispatched to the intersection of Broad Street and Washington Avenue in Philadelphia on report of a five-vehicle intersection pileup with two pedestrians struck and multiple serious injuries. A freezing rain ice storm was in progress at the time of the incident, creating glare ice on all road surfaces. Visibility was approximately 400 feet. This incident occurred during morning commute hours. Pedestrians Harriet Walker (age 77) and Lionel Walker (age 79) were crossing Broad Street northbound on the marked pedestrian crosswalk at Washington Avenue with the pedestrian WALK signal active. V1 (2022 Subaru Outback, Murphy) was traveling northbound on Broad Street and entered the intersection against a steady red signal. V1 struck Harriet Walker at the crosswalk, applying significant forward impact; Mrs. Walker was thrown approximately eight feet. V1 then struck Lionel Walker with a glancing blow from the right-front corner. Murphy's vehicle continued into the intersection and struck the left side of V2 (2020 Ford Escape, Gonzalez), which was legally crossing on green from Washington Avenue. The side impact to V2 was severe — the B-pillar was partially intruded. V3 (2019 Toyota Corolla, Chen) was traveling behind V2 on Washington Avenue and was struck from the rear by V4 (2021 Chevrolet Silverado, Okafor), which witness Henderson described as approaching the intersection at a speed disproportionate to the icy conditions. V5 (2018 Dodge Durango, Williams) struck V4's rear in a secondary chain, adding a fifth vehicle. Off-duty PPD Officer Patricia Diaz was present on the sidewalk on the south side of Washington Avenue and immediately ran to provide emergency first aid to Harriet Walker following the strike, applying pressure to the head laceration and calling for EMS assistance. Officer Diaz's actions are documented in her supplemental report (attached). Witness Franklin Booker was on the southeast sidewalk corner and had an unobstructed view of V1 running the red signal and striking both pedestrians. He also confirmed the WALK signal was active. Witness Denise Rawlins provided mobile video (29 seconds) showing the pedestrian aftermath and V4-V5 secondary impacts; this video is in evidence under EV-1101-A. Harriet Walker was transported in critical condition under trauma activation to Jefferson University Hospital with hip fracture, head laceration, and loss of consciousness. Lionel Walker was transported in serious condition with a lower leg fracture. V2 passenger Luciana Gonzalez was transported in critical condition with head trauma, rib fractures, and pelvic fracture. V2 passenger Diego Gonzalez, age 11 (child seat deformed), was transported in serious condition to St. Christopher's Hospital. V4 passenger Adaeze Okafor was transported with moderate injuries. V3 passenger Jason Chen declined transport after evaluation. Driver Murphy was placed under arrest by Det. Kim at 09:14 hrs pending investigation for the pedestrian strikes and red signal violation.

SECTION 9 — SUPPLEMENTAL INVESTIGATION NOTES

SUPPLEMENTAL — CRIMINAL INVESTIGATION AND ARREST: Driver Eileen C. Murphy (V1) was placed under arrest by Det. R. Kim at 09:14 hrs. Charges filed: (1) PA 75 Pa.C.S. §3112(a)(3) — Red Signal Violation; (2) PA 18 Pa.C.S. §2702(a)(1) — Aggravated Assault (serious bodily injury to Harriet Walker); (3) PA 18 Pa.C.S. §2701(a)(1) — Simple Assault (Lionel Walker); (4) Additional charges under review pending medical outcome of Harriet Walker (PA 18 Pa.C.S. §2504 — Causing Catastrophe may apply given age and severity). Murphy was transported to the Philadelphia Police Administration Building for processing. Murphy stated at the scene she did not see the red signal; she attributed this to sleet on her windshield. Windshield wiper condition: front blades severely degraded; no practical wiping function observed by this officer. OFF-DUTY OFFICER RECOGNITION: Officer Patricia Diaz's immediate first aid intervention prior to EMS arrival is documented in her Supplemental Report (PPD-SA-2026-1228-41). Based on EMS Unit 8's arrival time of 08:27 hrs (8 minutes after the collision), Diaz's intervention provided approximately 6–7 minutes of hemorrhage control to a 77-year-old patient, which is clinically significant. This supplemental will be forwarded to PPD Internal Affairs for recognition consideration per PPD Directive 5.3. PEDESTRIAN MEDICAL UPDATES: Harriet Walker — Jefferson Trauma: Right hip fracture (surgical repair at 11:44 hrs); subdural hematoma (small, conservative management); ICU admission. Critical but stable as of 16:00 hrs. Lionel Walker — Jefferson: Left tibia-fibula fracture (non-surgical reduction); admitted, stable. CHILD SEAT: Diego Gonzalez (V2, age 11, forward-facing seat deformed) — replacement mandatory per NHTSA. Resource sheet provided to Gonzalez family at Jefferson. SEPTA COORDINATION: SEPTA Transit Police Unit 3 responded due to SEPTA bus shelter damage. SEPTA Bus Route 4 northbound diverted from Broad & Washington from 08:35 to 10:48 hrs. SEPTA Transit Police Report #TP-2026-1228-441 filed. SIGNAL REPAIR: Philadelphia Streets Department signal crew responded at 09:44 hrs; signal taken out of service; portable stop signs deployed. Repair estimated 48 hours.
