

Seattle Police Department

Patrol Division — Traffic Services
610 5th Avenue, Seattle, WA 98104

OFFICIAL TRAFFIC COLLISION REPORT

(206) 555-0142 | Emergency: 911

CASE NUMBER	SPD-26-11-06-2214	WEATHER	Dense Fog + Rain (visibility < 100 ft, rain moderate)
DATE OF INCIDENT	November 6, 2026	LIGHT CONDITIONS	Dawn / Dark
TIME OF INCIDENT	07:12 hrs	ROADWAY SURFACE	Wet
LOCATION	Aurora Ave N (SR-99) at N 36th Street Bridge section, Seattle, WA 98103	TYPE OF COLLISION / VEHICLES	5-vehicle chain collision on elevated bridge section / 5 vehicles

SECTION 1 — RESPONDING UNITS

Responding Agency	Seattle Police Department
Investigating Officer	Officer Brandon K. Weston, Badge #3317
Officer Phone	(206) 555-0142 ext. 917
EMS Agency	Seattle Fire Dept. — Medic 21 and Medic 44 (transported five occupants)
Tow Companies	Puget Sound Towing (V2, V4, V5); owner (V1, V3)
Additional Units	Sgt. C. Larsen #2241; WSP Troop D Unit 7; WSDOT Incident Response SR-99; Seattle Fire Heavy Rescue

SECTION 2 — VEHICLES

#	Year / Make / Model	VIN	Plate	Damage
V1	2022 Honda CR-V	5J6RW2H56NL041801	WA-APX-4418 (WA)	Rear bumper, hatch — moderate; drivable
V2	2019 Ford Explorer	1FM5K8AR6KGC81801	WA-BKR-8821 (WA)	Front and rear deformed — sandwiched; both airbags deployed; not drivable
V3	2021 Toyota Tacoma	3TMCZ5AN1MM339801	WA-CTX-3319 (WA)	Front bumper, hood, grille destroyed; airbag deployed; radiator cracked
V4	2018 Subaru Legacy	4S3BWAC66J3041801	WA-DLM-7723 (WA)	Front and rear deformed; airbag deployed; frame suspected; probable total loss
V5	2020 Chevrolet Colorado	1GCGTDEN5L1141801	WA-EMT-441 (WA)	Front bumper, hood — moderate; airbag deployed; drivable with caution

SECTION 3 — DRIVERS / OPERATORS

Party	Name	DOB	License	Citation
Driver V1	Keiko R. Nakamura	02/14/1980	WA-N44218301	None
Driver V2	Kwame L. Osei	08/27/1975	WA-O88234107	WA RCW 46.61.400 — Speed Too Fast for Conditions
Driver V3	Amber J. Fletcher	11/15/1987	WA-F77187213	WA RCW 46.61.400 — Speed Too Fast for Conditions
Driver V4	Carlos M. Diaz	04/22/1994	WA-D44219801	WA RCW 46.61.400 — Speed Too Fast for Conditions
Driver V5	Young-Soo Park	09/08/1982	WA-P88219812	None

SECTION 4 — PASSENGERS

Veh	Name	DOB	Injury	Transported
V2	Abena T. Osei	06/19/1978	Critical: head trauma, loss of consciousness, suspected TBI	Yes — SFD Medic 21, to Harborview Medical Center Trauma (trauma activation)
V2	Kofi B. Osei	03/14/2012	Serious: right shoulder fracture, forehead laceration	Yes — SFD Medic 21, to Seattle Childrens Hospital (serious)
V4	Isabella C. Diaz	10/27/1996	Serious: cervical strain, airbag facial burns, rib contusion	Yes — SFD Medic 44, to Harborview Medical Center (serious)
V3	David P. Fletcher	07/31/1985	Moderate: left wrist fracture, airbag abrasion	Yes — SFD Medic 44, to Virginia Mason Medical Center (stable)
V5	Soo-Jin Park	04/11/1984	Minor: neck stiffness — evaluated, declined transport	No

SECTION 5 — WITNESSES

#	Name	Address	Phone	Statement
W1	Henry T. Blackwell	Following motorist, stopped safely before bridge entry	(206) 555-0341	Yes — watched 5-vehicle chain from safe distance; written statement
W2	Linda M. Cho	Pedestrian, N 36th St approaching bridge walkway	(206) 555-0448	Yes — observed V2 striking V1 at high speed from pedestrian path; verbal statement recorded
W3	WSP Trooper D. Schultz #229	WSP Troop D, arrived 07:24 hrs	WSP Internal	Yes — co-investigated on bridge; WSP PT-81 #WA-2026-1106-SR99-441 filed; EDR requests made
W4	WSDOT Incident Response Supe. P. Tanaka	WSDOT SR-99 Operations	(206) 555-0512	Yes — confirmed SR-99 fog advisory DMS active from 05:44 hrs; WSDOT ops log provided
W5	James O. Finney	Following V5, pulled to shoulder on bridge approach	(206) 555-0617	Yes — confirmed V5 braked and near-stopped before his own stop; confirmed fog wall on bridge; written statement

SECTION 6 — PROPERTY DAMAGE (NON-VEHICLE)

	SR-99 Aurora Ave N Bridge guard rail (N 36th section, east rail) — V4 post-collision contact; one panel bent. WSDOT Bridge Maintenance notified. Bridge expansion joint strip — V4 tire contact; minor damage noted.
--	--

SECTION 7 — NARRATIVE

On Friday November 6, 2026 at approximately 07:12 hrs, this officer, Sgt. Larsen, Washington State Patrol Trooper Schultz, WSDOT Incident Response, and Seattle Fire Heavy Rescue were dispatched to the Aurora Avenue N (SR-99) bridge section at N 36th Street in Seattle on report of a five-vehicle chain collision on the elevated bridge with multiple serious injuries and a fog-induced visibility emergency. Dense fog combined with moderate rain had reduced visibility to less than 100 feet at the bridge elevation. The bridge surface was wet. The incident occurred during morning commute on a busy arterial bridge over the Lake Washington Ship Canal. V1 (2022 Honda CR-V, Nakamura) was traveling northbound on SR-99 and entered the bridge section at a reduced speed, correctly responding to the dense fog by activating hazard lights. V1 slowed further as fog thickened on the bridge and came to a near-stop. V2 (2019 Ford Explorer, Osei) entered the bridge at a speed witness Cho estimated as inappropriate for the fog conditions; Osei struck V1's rear at an estimated 45–50 mph. V2 was pushed forward and came to an angled stop blocking the right lane and shoulder. V3 (2021 Toyota Tacoma, Fletcher) encountered the stalled V2 in the fog and struck V2's rear at significant speed; V3's airbag deployed and V3 came to rest partially in the left lane. V4 (2018 Subaru Legacy, Diaz) was the fourth vehicle in the chain, striking V3's rear and then making secondary contact with the bridge's east guard rail. V5 (2020 Chevrolet Colorado, Park) was the final vehicle, striking V4's rear at a reduced speed after emergency braking — witness Finney confirmed Park nearly stopped before the final V4 contact. WSDOT Incident Response confirmed the SR-99 dynamic message sign at the bridge south approach had been displaying "FOG — REDUCE SPEED" since 05:44 hrs — 88 minutes before the collision. WSP Trooper Schultz noted the bridge elevation creates a microclimate fog condition common to the Ship Canal crossing; WSDOT log showed this section reported dense fog at 05:30 hrs. The bridge location is categorized by WSDOT as a high-fog-risk zone. Witness Blackwell stopped safely at the bridge approach upon observing the fog wall and called 911 from that position. V2 passenger Abena Osei was found unresponsive with suspected TBI and was transported by SFD Medic 21 under trauma activation to Harborview Medical Center. V2 passenger Kofi Osei, age 14, was transported in serious condition to Seattle Children's Hospital with shoulder fracture. V4 passenger Isabella Diaz was transported in serious condition to Harborview with cervical strain and rib contusion. V3 passenger David Fletcher was transported to Virginia Mason Medical Center with a wrist fracture. V5 passenger Soo-Jin Park declined transport after evaluation. All drivers except those cited were uninjured.

SECTION 9 — SUPPLEMENTAL INVESTIGATION NOTES

SUPPLEMENTAL — BRIDGE FOG INVESTIGATION AND WSDOT COORDINATION: The Aurora Ave N Bridge (SR-99, George Washington Memorial Bridge) is a 2,945-foot long elevated structure spanning the Lake Washington Ship Canal. WSDOT documents this section as a high-frequency-fog location during November–February. WSDOT operates a fog detection system at this location using roadway visibility sensors. At 05:28 hrs, the sensor at the N 36th section triggered at Visibility Code 3 (visibility < 200 ft), activating the DMS at the south approach. Code 3 remained active through the time of the crash at 07:12 hrs. WSPOT has been requested to provide: (1) Full fog sensor log for SR-99 Ship Canal Bridge section from 04:00–08:00 hrs November 6; (2) DMS activation history; (3) Any prior incident history at this bridge section under similar fog conditions. All requested under WSDOT Records Request #WSDOT-PR-2026-441. **BRIDGE STRUCTURAL ASSESSMENT:** WSDOT Bridge Maintenance was dispatched at 08:02 hrs to assess the guard rail impact at the N 36th section east rail. Preliminary assessment at 09:14 hrs: one guard rail panel bent but anchor bolts intact; no structural compromise to bridge deck or support structure. Repair scheduled within 48 hours. **V2 PASSENGER MEDICAL UPDATE:** Abena Osei — Harborview Trauma confirmed large epidural hematoma with midline shift; emergency surgery performed at 08:41 hrs. Status: critical/post-operative as of 12:00 hrs. **CHILD PASSENGER:** Kofi Osei (V2, age 14) — adult seatbelt, no child seat. Right shoulder fracture confirmed (non-displaced clavicle); discharged from Seattle Children's with sling. **SR-99 CLOSURE:** WSP and WSDOT closed SR-99 NB at N 34th Street from 07:29 hrs to 10:11 hrs. Alternate route via I-5 NB posted on DMS. WSDOT TIM log attached as Exhibit A. WSP PT-81 attached as Exhibit B.

SECTION 10 — CITATIONS / CHARGES SUMMARY

Party	Statute	Violation	Fine / Disposition
Driver V2 (Osei)	WA RCW 46.61.400	Speed Too Fast for Conditions — bridge fog	Civil Penalty
Driver V3 (Fletcher)	WA RCW 46.61.400	Speed Too Fast for Conditions — bridge fog	Civil Penalty
Driver V4 (Diaz)	WA RCW 46.61.400	Speed Too Fast for Conditions — bridge fog	Civil Penalty

SECTION 8 — OFFICER SIGN-OFF
