Roadway debris field (broken plastic, glass, vehicle trim, fluid) across both NB lanes — cleared by TxDOT Incident Response by 01:15 hrs. Diesel/coolant minor spill (est. 1.5 gallons) from V3 radiator crack — fully absorbed by FWFD Ladder 4 using dry absorbent; no drainage or waterway entry; TCEQ notification not required per de minimis spill threshold.

SECTION 7 — NARRATIVE

On Wednesday October 14, 2026, at approximately 22:47 hrs, Officer D. Fuentes (Badge #3847), Sgt. P. Nguyen (#2219), TxDPS Trooper K. Adeyemi (#5502), MedStar Units 18 and 22, and FWFD Ladder 4 were dispatched to I-35W Northbound near Mile Marker 54.0 in Fort Worth, TX, following a 911 call from witness Anthony Brewer at 22:47:33 hrs reporting a multi-vehicle crash involving a commercial motor vehicle with confirmed injuries. A NWS Dense Fog Advisory (issued 20:15 hrs) was in effect for Tarrant County. Visibility at the scene was estimated at approximately 300 feet using the department range-estimation protocol. Overhead sodium-vapor lighting was present but substantially reduced in effectiveness due to fog scattering. V1 (2022 Toyota RAV4, registered owner and operator Karen L. Whitfield) was traveling northbound in the right lane at an estimated 45 mph — appropriately reduced for fog conditions. V1 slowed as the operator observed brake lights ahead coalescing in the fog. V2 (2020 Hyundai Sonata, operator Marcus J. Reyna, passengers Denise A. Reyna and minor Tyler J. Reyna) was following V1 at an estimated 55 mph and failed to reduce speed sufficiently, striking V1's rear with a differential speed of approximately 20-25 mph. V2 sustained moderate front-end damage; V1 sustained moderate rear damage. At this stage the two-vehicle collision was survivable without major trauma. V3 (2019 Freightliner Cascadia 126 Class 8 CMV, operator Bobby R. Hastings, leased by Harvest Logistics LLC) was traveling northbound in the right lane. Witnesses Morales and Ostrowski independently described V3 as traveling at or near highway speed (65 mph) without any apparent speed reduction despite active fog. Witness Ostrowski's dashcam footage (Evidence Ref: EV-7731-A) shows V3's headlights in fog approaching the stopped vehicle cluster with no visible brake lights until approximately one second before impact. V3 struck the rear of V2 at an estimated closing speed of 55-60 mph. The CMV impact force drove V2 fully into V1 a second time, compressing V2 simultaneously from front and rear and causing severe structural deformation to V2's cabin. V2 passenger Denise Reyna lost consciousness for approximately 90 seconds. Marcus Reyna sustained a head laceration and airbag deployment injuries. Tyler Reyna (age 13, rear center seat) sustained cervical complaints requiring EMS precautionary immobilization. Upon contact with CMV operator Hastings, this officer and Trooper Adeyemi immediately detected a strong odor of alcoholic beverage on Hastings's breath, observed slurred speech, red and watery eyes, and poor balance upon exiting the cab. Hastings admitted to consuming "a few beers" at a truck stop in Waco approximately one hour prior. Field sobriety testing (HGN, WAT, OLS) was administered by this officer — all three tests resulted in failure. PAS testing returned 0.107 and 0.109 g/dL — exceeding the CDL threshold of 0.04 g/dL by more than 2.5x. Trooper Adeyemi assumed primary jurisdiction of the CMV DWI investigation per TxDPS-FWPD MOU. Hastings was transported to the Fort Worth CVSA for evidentiary Intoxilyzer 9000 testing (0.11 g/dL, 23:51 hrs) and subsequently booked at Tarrant County Jail at 00:42 hrs. MedStar Unit 18 transported Marcus Reyna (JPS Health Network Trauma). MedStar Unit 22 transported Denise and Tyler Reyna (JPS and Cook Children's Medical Center respectively). V1 occupants Karen and Robert Whitfield declined transport. I-35W NB was fully closed at Exit 54A from 23:02 to 00:37 hrs (94 minutes). TxDOT diverted northbound traffic to U.S. 287/TX-183. Scene cleared 01:22 hrs.

SECTION 9 — SUPPLEMENTAL INVESTIGATION NOTES

SUPPLEMENTAL — CMV DWI INVESTIGATION (FWPD/TxDPS JOINT): Trooper K. Adeyemi (#5502, TxDPS Commercial Vehicle Enforcement Division) assumed primary jurisdiction of the CMV DWI investigation at 23:00 hrs per TxDPS-FWPD MOU (MOU #TXD-FW-2024-07). Operator Hastings's CDL-A license (TX-CDL-A-88471039) was placed on administrative suspension at scene effective 23:15 hrs per FMCSA disqualification criteria (BAC >= 0.04 g/dL for CDL holders, 49 CFR 383.51). V3 was placed out of service and may not be operated until a CVSA Level I inspection is completed and clearance issued. **HOURS OF SERVICE:** ELD records (Samsara fleet telematics, Harvest Logistics LLC account #HL-4419) downloaded at scene by Trooper Adeyemi via fleet portal. Preliminary review: Hastings logged 9.4 hours on-duty driving in the preceding shift period, within the 11-hour driving limit. However, a 37-minute log gap between 19:10 and 19:47 hrs — coinciding with a Pilot Flying J location in Waco, TX (MM 331 I-35) -- is flagged for HOS audit. Full certified ELD report submitted as Exhibit B. **EDR DATA REQUEST:** V3 EDR (Freightliner factory-installed, Detroit DD15 engine ECM) download requested by FWPD Traffic Investigation Unit (Det. M. Huang #4482) and TxDPS. Rush Truck Center (Fort Worth, 2200 E Loop 820 N) scheduled for October 16, 2026. EDR will establish V3's speed, throttle, brake application, and cruise control status in the 5-second pre-crash window. **DASHCAM EVIDENCE:** USB dashcam from witness Ostrowski (34-second footage, 1080p, Nextbase 522GW) accepted into evidence as EV-7731-A. Submitted to FWPD Digital Evidence Unit (DEU) for authentication, chain-of-custody processing, and enhancement. Estimated DEU return: 5 business days. **PRIOR RECORD — HASTINGS:** Tarrant County records check at 23:22 hrs returned one prior DWI conviction (2019, Bexar County, Cause #2019-CR-112847, Class B conviction). If confirmed by full NCIC/DPS record return, current offense is Felony DWI — 3rd or more under TX Penal Code Sec. 49.09(b)(1), a 3rd-degree felony punishable by 2-10 years TDCJ. NCIC response pending at time of this report; DA notification will follow upon receipt. **MINOR PASSENGER — TYLER REYNA:** DOB 06/14/2013, age 13. Transported to Cook Children's Medical Center with parent Denise Reyna (MedStar Unit 22). Both legal guardians (Marcus and Denise Reyna) contacted and accounted for. CPS notification not required based on scene assessment. Hospital follow-up requested within 24 hours per FWPD Juvenile Involved Collision Protocol. **I-35W CLOSURE / TIM LOG:** Full I-35W NB closure Exit 54A to Exit 54B, 23:02 to 00:37 hrs (95 minutes). TxDOT TIM Log #TXD-TIM-2026-1014-007 filed; attached as Exhibit A.
