SECTION 7 — NARRATIVE

On Wednesday November 18, 2026, at approximately 15:52 hrs, Det. Sgt. Y. Castellanos (Badge #7741), Cpl. M. Reid (#3318), FHP Trooper J. Abreu (#0811), MDRF Rescue 30, Rescue 47, and Air Rescue 1 were dispatched to I-95 Northbound at approximately Mile Marker 12.3 near the NW 79th Street interchange in Miami, FL, following multiple 911 calls reporting a multi-vehicle crash with a motorcycle ejection and confirmed injuries. A Florida afternoon convective storm was producing a heavy rain squall at time of dispatch, with visibility estimated at 200-400 feet during the burst. FDOT's dynamic message sign at MM 10.8 was displaying a 45 mph advisory speed limit. Lightning was reported 2 miles north. V5 (2022 Kawasaki Ninja 650, operator Rafael Gutierrez, DOB 02/07/1996) was traveling in the right lane of I-95 NB at an estimated 55 mph. V3 (2020 Freightliner M2 106 box truck CMV, operator Eduardo Ruiz for SwiftBox Delivery LLC) was traveling northbound in the center lane at an estimated 58 mph — above the FDOT advisory speed displayed on the active DMS. Without signaling, V3 executed a lane change to the right lane. V5 was directly in V3's path. Gutierrez braked hard and swerved right; the right rear corner of V3's box body made contact with V5's left fairing and handlebar, rotating V5 and launching Gutierrez over the right-side handlebars. Gutierrez was ejected approximately 22 feet, striking the right-shoulder Jersey barrier. V5 slid and came to rest against the barrier. Following the V3/V5 contact, V3 continued into the right lane and struck the right-rear of V2 (2023 Honda Pilot, operator Camila Montoya, born April 8, 1988, Coral Gables, FL). V3's impact drove V2 into the rear of V1 (2021 Dodge Challenger, operator Brandon Jacobs). V4 (2019 Toyota Camry, operator Desmond Pierre) was traveling in an adjacent lane and was struck by debris and the right-side box corner of V3 during the chain, sustaining right-front damage. V2 received the most severe structural damage, with both front airbags deploying and significant rear-end deformation from V3's impact force. MDRF Air Rescue 1 responded to Gutierrez (V5 operator), who was found unconscious with an open right femur fracture and suspected pelvic instability. ALS paramedics intubated Gutierrez at scene. Air Rescue 1 departed scene at 16:19 hrs with Gutierrez in critical condition under Trauma Level I activation to Ryder Trauma Center at Jackson Memorial Hospital. MDRF Rescue 30 transported Camila Montoya and minor passenger Sofia Montoya (age 11) to Jackson Memorial / Holtz Children's. Marcus Jacobs and V1 passenger Tanya Jacobs declined transport. V4 operator Pierre declined transport. I-95 NB was reduced to one express lane from 16:00 to 18:44 hrs (2 hrs 44 min). FDOT Incident Response managed traffic control with portable DMS at MM 11.6. Scene cleared 18:52 hrs; all lanes restored.

SECTION 9 — SUPPLEMENTAL INVESTIGATION NOTES

SUPPLEMENTAL — CMV INVESTIGATION AND DASHCAM EVIDENCE: FMCSA POST-ACCIDENT TESTING:

Operator Ruiz (V3) was subject to mandatory post-accident drug and alcohol testing per FMCSA 49 CFR 382.303 (serious bodily injury crash with tow). FHP Trooper Abreu administered BAC PAS at scene (0.00 g/dL, 16:02 hrs) and collected urine sample via observed collection at scene (chain-of-custody Form MCS-65). Sample submitted to PharmChem Labs (certified DOT lab); results expected within 3-5 business days. Full CMV inspection report (FHP Form CMV-22, Level II) pending from Trooper Abreu — expected within 7 days. HOURS OF SERVICE: Ruiz's ELD (Samsara, SwiftBox fleet account SB-9341) records downloaded at scene by Trooper Abreu. Preliminary review: 6.8 hours on-duty driving, within 11-hour limit. No gaps or anomalies flagged. Full certified ELD report submitted as Exhibit B. DASHCAM EVIDENCE — TWO SOURCES: EV-5541-A: Lorraine Dupont rear dashcam (Garmin Dash Cam 57) — partial rearward view; submitted to MDPD Digital Evidence Unit (DEU) for authentication. EV-5541-B: Marcus Okonkwo front dashcam (BlackVue DR900X, 4K) — front-facing footage covering the full 12-second pre-crash window including V3 lane change and V5 ejection sequence. This is the primary physical evidence item. Submitted to DEU for authentication and enhancement. DEU return: est. 5 days. MINOR PASSENGERS IN V2: Sofia Montoya (DOB 03/11/2015, age 11) transported to Holtz Children's Hospital; Andres Montoya (DOB 07/29/2018, age 8) released to grandmother Elena Vargas (ID verified). Both legal guardians (Camila Montoya, hospitalized; Eduardo Montoya, notified by phone at 16:28 hrs) are accounted for. CPS referral not required based on scene assessment. INSURANCE NOTIFICATION — V1: Allstate adjuster notification initiated by Officer Jacobs (V1 owner) at scene under claim reference ALLST-FL-8812-BKJ-2026. Adjuster contact: (800) 255-7828. Property damage claim opened. GUTIERREZ MEDICAL UPDATE: Ryder Trauma Center confirmed receipt of patient 16:41 hrs. Surgical intervention for open femur fracture initiated 17:15 hrs. Patient listed as critical/stable as of 20:00 hrs per trauma attending. 24-hour medical update requested per MDPD Traffic Homicide protocol (Serious Injury Threshold — TH-2026-5541 open pending outcome). FDOT DRAINAGE CONDITION: FDOT Incident Response Supervisor M. Calero flagged the drainage grate at MM 12.3 as a contributing environmental factor. Standing water in the right lane was observed at scene and documented in photographs (Evidence Ref: EV-5541-C, scene photography, 47 images). FDOT will provide a maintenance history for the MM 12.3 grate within 10 business days. This information may be relevant to civil liability determination.
